

Greg Young, P.E., co-founder of Tully & Young, Inc., is a registered civil engineer with over 19 years of extensive experience in strategic water resource planning. Greg has spent most of his career synthesizing multiple water resource disciplines – technical, legal, policy, and economic – with practical knowledge to empower clients to make good water planning decisions. Greg’s unique expertise has been called upon by many clients to help address complex, multi-faceted water resource management challenges. Most recently, Greg was selected to lead the ‘water supply and reliability’ technical and strategic planning efforts for the Delta Vision Blue Ribbon Task Force’s development of the 2007 Delta Vision and the 2008 Strategic Plan. Mr. Young’s experience in addressing the ‘supply’ as well as the ‘demand’ in strategic water management activities has encompassed a diverse set of clients, issues and circumstances throughout the state.
